OUR STORY

Our mission is to build the next generation of global leaders and innovators. Our award-winning faculty of master practitioners from leading consulting firms, prestigious universities, and Fortune 500 companies empower students to learn to lead with conviction, innovate with passion, develop their creative and critical thinking, cultivate tenacity, and embrace their authentic selves in the world.

The “4 Cs.”

The Academy of Tomorrow equips students with the skills identified by Harvard University’s Advanced Leadership Initiative that will help them discover the best opportunities of the 21st century: Critical thinking, Communication, Collaboration and Creativity.

“As we shift from a stable, linear economy to an innovative and dynamic one, we need a new definition of success and a new approach to learning. We founded The Academy of Tomorrow to cultivate the next generation of critical thinkers, idea-makers, and leaders who will re-imagine the world.”
